

FOR IMMEDIATE RELEASE

Parts Authority Accelerates Geographic Expansion with 450,000-Square-Foot Distribution Facility in Olive Branch, Mississippi

Lake Success, N.Y., Aug 10, 2026 – Parts Authority, one of the leading national distributors of automotive replacement parts, tools, and equipment, today announced the opening of a 450,000-square-foot distribution facility in Olive Branch, Mississippi. The launch of this site marks a major milestone in the company's nationwide growth trajectory, expanding its footprint into a new state and strengthening its coast-to-coast reach.

Marking Parts Authority's entry into Mississippi, the facility will serve as a critical hub in the company's distribution network and a foundation for continued expansion. Olive Branch sits at the heart of one of the nation's premier logistics corridors, just outside Memphis, placing the site alongside major shipping and freight infrastructure. From this central position, the facility will significantly accelerate delivery times for commercial clients and repair shops across the United States. It will also enable Parts Authority to add meaningful depth to its inventory, giving customers access to a broader range of parts, closer to where they need them.

"A building of this scale, in this location, is a strategic and important piece for our omnichannel business and long-term capacity," said Clark Hale, CEO of Parts Authority. "It gives us the platform to accelerate delivery times today while opening the door to future geographic expansion. Just as importantly, it is the people and the community that make this launch so special. We are proud to welcome the hard-working personnel at this site to the Parts Authority team. Their expertise and dedication will be vital as we bring this facility into our national network."

With an experienced team in place from day one, the facility will be operational immediately, bringing the consistent, dependable service Parts Authority customers expect to a new market and establishing a base for long-term growth in the region and beyond.

About Parts Authority:

Founded in 1973, Parts Authority is one of the largest distributors of automotive and truck parts to the aftermarket auto parts industry in the United States. It serves customers in the commercial channel, including installers, dealerships, fleets, and national accounts, as well as in the e-commerce channel. Headquartered in Lake Success, NY, Parts Authority operates over 250 locations across the Northeast, Mid-Atlantic, Southeast, Mid-West, Pacific Northwest, and Southwest. The company has grown through both organic initiatives and strategic acquisitions, expanding its geographical footprint significantly over the past several years.
